1. *Apocalypse Now*, a film produced and directed by Francis Ford Coppola, gained widespread popularity, and for good reason. The film is an adaptation of Joseph Conrad's novel *Heart of Darkness*, which is set in the African Congo at the end of the 19th century. Unlike the original novel, *Apocalypse Now* is set in Vietnam and Cambodia during the Vietnam War. The setting, time period, dialogue and other incidental details are changed but the fundamental narrative and themes of *Apocalypse Now* are the same as those of *Heart of Darkness*. Both describe a physical journey, reflecting the central character's mental and spiritual journey, down a river to confront the deranged Kurtz character, who represents the worst aspects of civilisation. By giving *Apocalypse Now* a setting that was contemporary at the time of its release, audiences were able to experience and identify with its themes more easily than they would have if the film had been _____.

[3점]

* deranged: 제정신이 아닌

- ① a literal adaptation of the novel
- ② a source of inspiration for the novel
- ③ a faithful depiction of the Vietnam War
- ④ a vivid dramatisation of a psychological journey
- ⑤ a critical interpretation of contemporary civilisation

2. Even as mundane a behavior as watching TV may be a way for some people to _____

_____. To test this idea, Sophia Moskalenko and Steven Heine gave participants false feedback about their test performance, and then seated each one in front of a TV set to watch a video as the next part of the study. When the video came on, showing nature scenes with a musical soundtrack, the experimenter exclaimed that this was the wrong video and went supposedly to get the correct one, leaving the participant alone as the video played. The participants who had received failure feedback watched the video much longer than those who thought they had succeeded. The researchers concluded that distraction through television viewing can effectively relieve the discomfort associated with painful failures or mismatches between the self and self-guides. In contrast, successful participants had little wish to be distracted from their self-related thoughts!

* mundane: 보통의

- ① ignore uncomfortable comments from their close peers
- ② escape painful self-awareness through distraction
- ③ receive constructive feedback from the media
- ④ refocus their divided attention to a given task
- ⑤ engage themselves in intense self-reflection

103. Mathematics will attract those it can attract, but it will do nothing to overcome resistance to science. Science is universal in principle but in practice it speaks to very few. Mathematics may be considered a communication skill of the highest type, frictionless so to speak; and at the opposite pole from mathematics, the fruits of science show the practical benefits of science without the use of words. But those fruits are ambivalent. Science as science does not *speak*; ideally, all scientific concepts are mathematized when scientists communicate with one another, and when science displays its products to non-scientists it need not, and indeed is not able to, resort to salesmanship. When science speaks to others, it is no longer science, and the scientist becomes or has to hire a publicist who dilutes the exactness of mathematics. In doing so, the scientist reverses his drive toward mathematical exactness in favor of rhetorical vagueness and metaphor, thus _____. [3점]

- ① degrading his ability to use the scientific language needed for good salesmanship
- ② surmounting the barrier to science by associating science with mathematics
- ③ inevitably making others who are unskillful in mathematics hostile to science
- ④ neglecting his duty of bridging the gap between science and the public
- ⑤ violating the code of intellectual conduct that defines him as a scientist

104. So far as you are wholly concentrated on bringing about a certain result, clearly the quicker and easier it is brought about, the better. Your resolve to secure a sufficiency of food for yourself and your family will induce you to spend weary days in tilling the ground and tending livestock; but if Nature provided food and meat in abundance ready for the table, you would thank Nature for sparing you much labor and consider yourself so much the better off. An executed purpose, in short, is a transaction in which the time and energy spent on the execution are balanced against the resulting assets, and the ideal case is one in which _____. Purpose, then, justifies the efforts it exacts only conditionally, by their fruits. [3점]

- ① demand exceeds supply, resulting in greater returns
- ② life becomes fruitful with our endless pursuit of dreams
- ③ the time and energy are limitless and assets are abundant
- ④ Nature does not reward those who do not exert efforts
- ⑤ the former approximates to zero and the latter to infinity
